Deborah Grady, MD, MPH
Professor of Medicine, Associate Dean for Clinical and Translational Research, Interim Director of the UCSF Clinical and Translational Science Institute (CTSI)

Please join us in honoring Dr. Deborah Grady and her outstanding contributions to faculty mentorship at UCSF.

Deborah Grady is Professor of Medicine, Associate Dean for Clinical and Translational Research, Interim Director of the UCSF Clinical and Translational Science Institute (CTSI) and Deputy Editor of JAMA Internal Medicine. She is a leader in clinical research methodology, clinical trial design and clinical research training. Dr. Grady played a key role in the development of clinical and translational research training programs at UCSF over the past two decades, including curriculum and course development in the didactic program (Training in Clinical Research), and developing the training programs for professional students, residents, junior faculty, early translational researchers and late translational research. Dr. Grady is an editor of Designing Clinical Research, a leading textbook on clinical research methods, and she is an internationally recognized expert on the risks and benefits of postmenopausal hormone therapy and the treatment of menopausal symptoms. Dr. Grady has mentored over 40 young researchers in a wide variety of disciplines, almost all of whom are currently successful independent clinical researchers. She is an elected member of the Institute of Medicine of the National Academies of Science.

For additional information, please contact: Mitchell D. Feldman, MD, MPhil, at mfeldman@medicine.ucsf.edu or Irené Merry at irene.merry@ucsf.edu
