

## New Website Highlights CTSI's Work, Successes, People

With CTSI's [new organizational website](#), we have created a tool to better communicate the work we do; to showcase the expertise of our people; and to encourage and foster a range of partnerships. Use the "Feedback" button to let us know what you think.

Among the highlights: [Our Work](#), [Voices](#), [News](#), and easy access to other CTSI sites (*Accelerate: Services for Researchers* and *UCSF Profiles*) using the tabs at the top left.

## UC Program to Accelerate Translational Research Across State

Imagine a statewide research engine of pooled resources, data, and expertise that accelerates the "translation" of academic research to direct patient benefit. That's the goal of the new UC BRAID program. [Read now](#)

## CTSI Clinical Research Services Launches Cost Recovery Model

CTSI is working to establish a financial model that will allow Clinical Research Services (CRS) to continue offering high-quality, core services, while also developing new services to address emerging needs. [Read now](#)
