The Clinical and Translational Science Institute at the University of California, San Francisco is a member of the Clinical and Translational Science Awards (CTSA) consortium funded through the National Center for Advancing Translational Sciences (NCATS)—grant number UL1 TR000004—at the National Institutes of Health (NIH). ctsi.ucsf.edu

UCSF is a leading university dedicated to promoting health worldwide through advanced biomedical research, graduate-level education in the life sciences and health professions, and excellence in patient care. ucsf.edu

ACCELERATING CLINICAL TRIALS

CTSI is a part of a collaboration of leading academic and community medical centers implementing a system of efficiencies to accelerate clinical trials, which is projected to impact millions of Californians.

BUILDING INNOVATIVE PARTNERSHIPS
ACCELERATING RESEARCH TO IMPROVE HEALTH

Increasing Scientific Data Sharing

Datashare brings CTSI together with the UCSF Library and the California Digital Library with the goal of achieving widespread sharing of scientific data.

Catalyzing Innovative Research

CTSI Catalyst Awards serve as one of the pipelines feeding UCSF's new Center for Digital Health Innovation (CDHI).

Promoting Practice-Based Research

San Francisco Bay Area Collaborative Research Network (SF Bay CRN) facilitates research partnerships and supports the improvement of primary care practices and health outcomes in diverse communities.

Improving Health in San Francisco

San Francisco Health Improvement Partnership (SFHIP) is a city-wide, cross-sector collaboration between non-profit hospitals, city of San Francisco, and Public Health and community partners focused on achieving measurable improvements in health and health equity.

Leading Efforts to Improve Value

CTSI is developing and administering the UCSF Center for Healthcare Value (CHV), which includes initiatives focused on Training, Care Delivery Systems, and Research & Policy, as well as a wide range of partners, including the UCSF Medical Center.

Training the Next Generation of Translational Researchers

Master of Translational Medicine (MTM) program is a joint UCSF/UC Berkeley effort that is among the first of its kind in the nation. 68 students enrolled (since 2010) MTM program is generously supported by The Grove Foundation.

Aligning with Affiliate Organizations:

Blood Systems Research Institute (BSRI)
California Institute for Quantitative Biosciences (QB3)
Children’s Hospital Oakland Research Institute (CHORI)
Ernest Gallo Clinic and Research Center
J. David Gladstone Institutes
San Francisco Bay Area Collaborative Research Network (SF Bay CRN)
San Francisco Dept of Public Health
San Francisco Veterans Affairs Medical Center

Fostering Industry-Academic Collaboration

100+ Catalyst Awards Advisors from academia, industry and venture capital provide expert advice to support the development of diagnostics, devices, therapeutics and technologies.

Enabling Open Source Solutions

Building a community of developers and institutional partners to improve research networking tools (Open Research Networking Gadgets) and facilitate the enhancement of shareable resource discovery tools for institutions (Plumage).
