

Enabling Science Advances at UCSF

In support of researchers at every stage, CTSI's Consultation Services program is connecting investigators to faculty experts in fields ranging from global health and biostatistics to study design and participant recruitment.

Master in Translational Medicine Gets UC Approval

An innovative graduate curriculum in translational medicine jointly offered by UCSF and UC Berkeley has received final approval from University of California President Mark Yudof as a master's degree program. This translational medicine program, launched with support from CTSI, trains students from varied backgrounds to bring innovative treatments into clinical use.
