

RESOURCE	DESCRIPTION
Clinical Research Resource <a href="#">HUB</a>	Provides a single portal to a <i>wealth</i> of resources, expertise, and best practices for: <ul style="list-style-type: none"> <li>• Tools, templates, guidance for Investigators, Study Staff, and Affiliates</li> <li>• Study design, set up, conduct and close out</li> </ul> Trial management, regulatory issues, and training resources
Clinical Trials Operations ( <a href="#">CTO</a> )	Serves as advocate for clinical trials community: <ul style="list-style-type: none"> <li>• Provides Clinical Research Coordinator (CRC) training courses</li> </ul>
Community Engagement ( <a href="#">CE</a> )	Bridges academic research and community practice to address health equity and improve health outcomes for all: <ul style="list-style-type: none"> <li>• Consultations on research methods, forming equitable partnerships, and developing robust community or patient advisory boards</li> <li>• Research partnerships with community-based clinics</li> <li>• Resources and guides for community-engaged research</li> </ul> Linkages, trainings, and other support for researchers and community partners <i>(Some services only available at certain sites)</i>
Consultation Services ( <a href="#">CS</a> )	Connects researchers to study support services throughout all stages of their study, from proposal to publication. <ul style="list-style-type: none"> <li>• Study Design</li> <li>• Data Management, Sharing and Extraction</li> <li>• EHR research and tool integration</li> <li>• Biostatistics and Epidemiology</li> <li>• Scientific Writing</li> <li>• Bioethics</li> <li>• Population Health and Health Services Data</li> <li>• Broadly engaged team science</li> </ul> The first hour at no charge. Learn more and submit a request at <a href="http://consult.ucsf.edu">consult.ucsf.edu</a> <i>(Some services only available at certain sites)</i>
Impacting Practice & Policy by Accelerating Translation ( <a href="#">IMPACT</a> )	Provides UCSF faculty and staff with resources and training in collaborating with a broad range of stakeholders to quicken the adoption of evidence-based policies in healthcare, government, industry, and other sectors. Aims to influence real-world decision-makers to use data and science to inform their work. <i>(Some services only available at certain sites)</i>

For RIN Inquiries: [Laurie.Herraiz@ucsf.edu](mailto:Laurie.Herraiz@ucsf.edu)

RESOURCE	DESCRIPTION
Informatics & Research Innovation ( <a href="#">IRI</a> )	Facilitates innovative clinical decision support & digital interventions. Provides informatics support (for grants, feasibility etc.) for research embedded within or enabled by health systems <i>(Some services only available at certain sites)</i>
Participant Recruitment Program ( <a href="#">PRP</a> )	Tools and resources to support research teams in meeting their recruitment goals. Tools and services include <ul style="list-style-type: none"> <li>• Social Media Recruitment Service</li> <li>• Free/DIY Tools such as website and flyer templates</li> <li>• Recruitment of diverse populations</li> </ul> Learn more at <a href="https://recruit.ucsf.edu">recruit.ucsf.edu</a> <i>(Some services available for a charge)</i>
Regulatory Knowledge and Support ( <a href="#">RKS</a> )	Supports investigators in the conduct of compliant research by providing: <ul style="list-style-type: none"> <li>• Navigation through the regulatory landscape</li> <li>• Consultations in regulatory and ethical issues</li> </ul> Support for individual participant-level data sharing and reuse
Research Action Group for Equity ( <a href="#">RAGE</a> )	Provides support and infrastructure, including workforce development, to support the recruitment of diverse study populations. <ul style="list-style-type: none"> <li>• Consultations and resources on recruitment best practices</li> </ul> <i>(Some services only available at certain sites; Some services available for a charge)</i>
Research Technology ( <a href="#">RT</a> )	Creates technology solutions that support the clinical and translational research enterprise with a focus on enhancing collaboration and making research more efficient. <ul style="list-style-type: none"> <li>• <a href="#">UCSF Profiles</a>: Search for research collaborators and experts</li> <li>• <a href="#">UCSF Clinical Trials</a>: Web-based search tool of UCSF clinical trials</li> </ul>
SFBay Collaborative Research Network ( <a href="#">SFBay CRN</a> )	Serves as a practice-based research network (PBRN) designed to encourage, facilitate, and lead mutually beneficial practice-based research partnerships between UCSF researchers and community-based primary health care organizations, practices and clinicians in the San Francisco Bay Area and Northern California. Provides consultation, linkages and pilot funding.
SFBay Research Infrastructure Network ( <a href="#">SFBay RIN</a> )	Builds bridges and creates research partnerships with UCSF sites and regional clinical affiliates to ensure the wide array of CTSI research resources is accessible to investigators throughout the network. Conducts research needs assessments at local and regional sites (UCSF Fresno, Benioff Children's Hospital Oakland, SFVAMC, John Muir Health, MarinHealth and Washington Hospital Healthcare System).
